

Adaptive Mechanical Covering

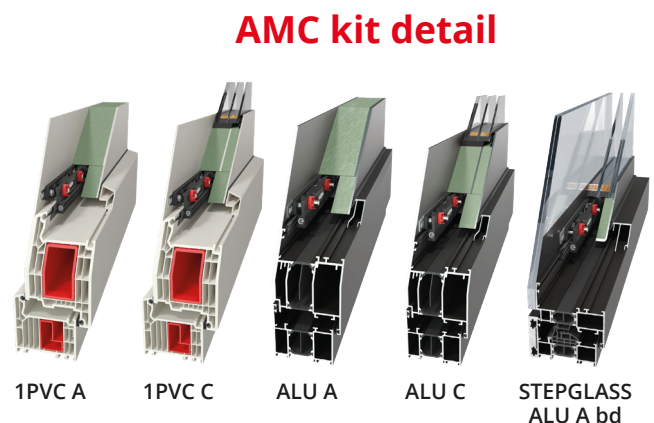

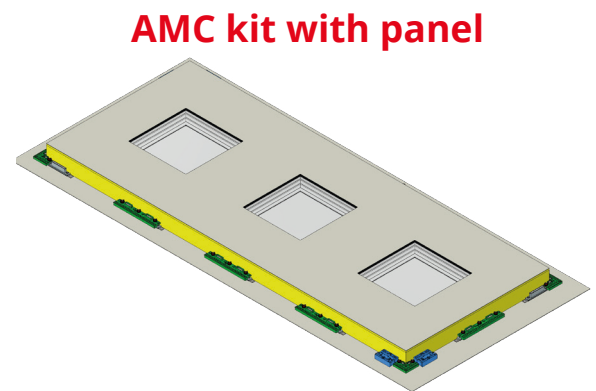

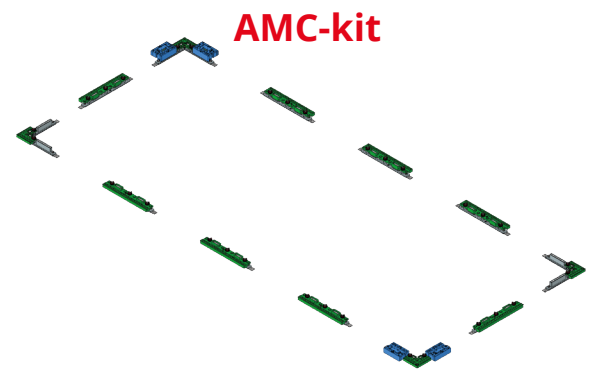

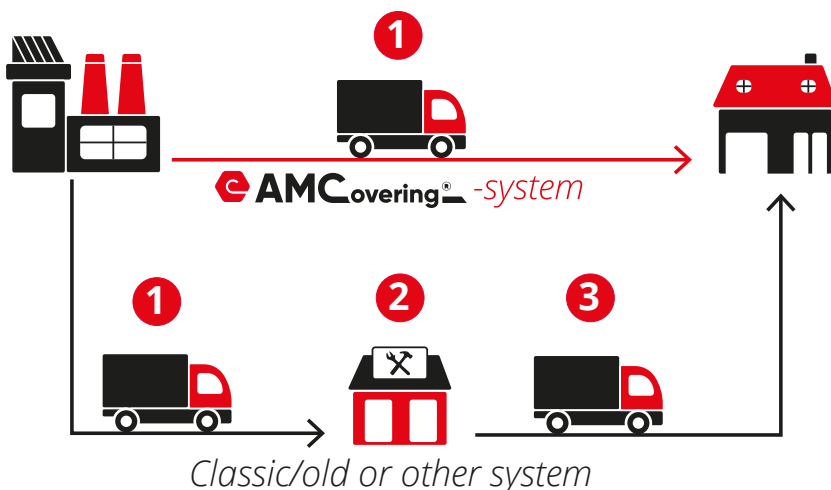

Professional, efficient and simple cover panel system for PVC/ALU doors and windows

AMC CLAMP SYSTEM

The velvet glove for your profile

- Clamps only on the profile where force may be applied, on a window and door on the lip with seal
- Load less on the door and window than a classic insert panel
- The buffer against the forces of the sandwich panel, both bending and expansion forces are almost completely neutralized

Directly supplied from your doorpanel manufacturer to window manufacturer / installer

Adaptive Mechanical Covering

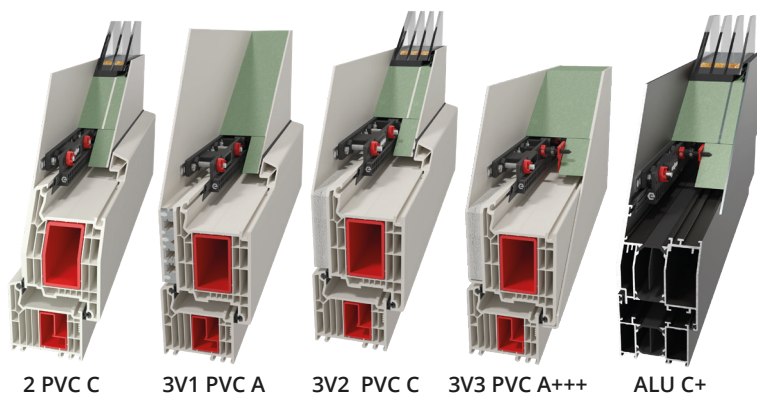

Professional, efficient and simple cover panel system for PVC/ALU doors and windows

AMC CLAMP SYSTEM

Cover panels and cover glass for ALU/PVC windows and doors: replaceable, without damage, as with insert glass
